Status of the Application

Effective February 7, 1998, the Group and Art Unit location of your application in the PTO has changed. To aid in correlating any papers for this application, all further correspondence regarding this application should be directed to Group Art Unit 1649.

The following is an examiner's statement of reasons for allowance:

The instant application is a CPA that differs from the parent application in applicants withdrawal of priority claims under 35 U.S.C. § 120, to prior US patent applications. Since priority was originally claimed to August 30, 1990, and the filing date of the instant application is December 14, 1995, a review of the prior art was necessary to determine if any available art was made public in these intervening years. A review of the art, including a search for available nucleotide sequences, indicates that the invention remains free of the prior art.

Any comments considered necessary by applicant must be submitted no later than the Payment of Issue Fee and, to avoid processing delays, should preferably accompany the issue Fee. Such submissions should be clearly labeled "**Comments on Statement of Reasons for Allowance.**"
